#SGFinTechFest
The Singapore FinTech Festival is the largest Financial Technology event in the world. Attracting more than 30,000 participants, decision makers and investors from 109 countries in 2017, the event is considered by the global FinTech community as the world’s largest platform for the global FinTech community, with Singapore thriving as an international hub at the forefront of FinTech innovation.

Graced by dignitaries such as Christine Lagarde (Managing Director of the International Monetary Fund), Queen Maxima of the Netherlands (In her capacity as the United Nations’ Secretary-General’s Special Advocate for Inclusive Finance for Development) and Arun Jaitley (India’s Finance Minister and Minister of Corporate Affairs), the 2017 edition of Singapore FinTech Festival was the definitive global platform for FinTech inclusiveness, knowledge exchange and new developments.

Connect, Learn and Access New Opportunities

The Festival welcomes a myriad of industries in the FinTech ecosystem, including participants from financial institutions, technology firms, start-ups, innovators, investors, researchers, academics and many others. Get plugged into the Festival’s rich on-site community and gain access to unprecedented business opportunities, as well as keeping up to date with the latest innovations and solutions.

Reach over 30,000 participants, decision makers and investors through exhibiting at the Singapore FinTech Festival 2018.

The 2017 edition of Singapore FinTech Festival attracted more than 300 exhibiting companies from 31 countries. The exhibition saw over 100 start-ups and hosted 8 country pavilions - France, India, Japan, Korea, Latin America, Poland, Switzerland and United States of America. C-suite, senior management level decision makers and influencers made up over 40% of total festival attendees.

Here's what our Exhibitors had to say:

"Being here at the world’s largest FinTech event, it’s been amazing and an incredible experience for us as we interacted with a lot of visitors from all over the world at our booth."

Mia Watanabe
Director, Legal and Compliance, Asia Pacific, Flywire – Cross border payments start-up and top prize winner of the FinTech Awards (Singapore Open)

"The Singapore FinTech Festival has given us the opportunity to showcase our innovations that are geared towards creating a Smart Nation, reinforcing our commitment to building a world beyond cash. Using augmented reality, visitors were able to experience how Mastercard smart technology improves the way people move, work and live in areas such as transit, everyday payments and trade."

Tobias Puehse
Vice President of Mastercard Labs, Asia Pacific

"The Singapore FinTech Festival is wonderful. As a start-up, people would not have heard of you. Winning the Hackcelerator last year had all of a sudden given us a lot of attention. SingEx has maintained the quality of attendees which are good and professional."

Dr. Tan Geok Leng
CEO and Founder, AIDA Technologies, Finalist for Hackcelerator 2017 and winner of the 2016 edition

The Global FinTech Hackcelerator is the most sought-after competition for exciting and innovative start-ups looking to address problem statements collated from the financial industry.

In May 2018, MAS published 80 industry problem statements gathered from the FinTech community and financial industry and invited innovative start-ups from around the world to develop solutions to any of these chosen problems for the Global FinTech Hackcelerator. These problem statements fall under 4 categories: Financial Inclusion, InsurTech, RegTech & SupTech, and General.

**Financial Inclusion**
Solutions which empower consumers and businesses to gain access to financial services.

**RegTech and SupTech**
Solutions to ensure compliance of regulatory requirements, especially when financial institutions engage in corporate activities.

**InsurTech**
Solutions to help the financial institutions transform and shape the future state of insurance.

**General**
Solutions which enable financial institutions to enhance customer experience or increase their efficiency.
