

Dyna.AI to Showcase Future-Shaping AI Solutions at Singapore FinTech Festival 2025 as 85% of Global Financial Firms Embrace AI

- The company's early developments will be showcased at the Future of Finance booth led by the Monetary Authority of Singapore (MAS) on **13 November, 12:30PM, Hall 6, Booth 6C37**
- At the Singapore FinTech Festival, Dyna.AI is nominated for the FinTech Excellence Awards 2025

Singapore, 10 November, 2025 – Dyna.AI, a leading global AI-as-a-Service company, will return to the Singapore FinTech Festival from November 12 – 14. Headquartered in Singapore, Dyna.AI will showcase a number of its applied AI solutions from its full-stack suite.

Building on the 2024 launch of Agent Studio, Dyna.AI will showcase the applied layer of its ecosystem — AI agents and Agentic Applications designed to work alongside humans, enhance daily work, and free teams to focus on higher-value tasks that drive growth. These demonstrations reflect how financial institutions are beginning to turn AI from an experimental tool into a driver of real business impact.

"Dyna.AI remains focused on building AI for the real world--AI that delivers results, and not innovation for its own sake," **said Tomas Skoumal, Chairman and Co-Founder of Dyna.AI.** "Our goal is to help organizations see measurable impacts; stronger efficiency, better customer and employee experience, and sustainable top-line growth with AI. Balancing vision with execution has defined our work in finance, and that continues to guide how we scale with partners globally."

Building on its success since launch, Dyna.AI has been nominated as a finalist at the Festival's FinTech Excellence Awards 2025. This follows from its recent recognition when the company was chosen as a technology partner in the Hong Kong Monetary Authority (HKMA)'s GenAI Sandbox Program.

One of Dyna.AI's early developments will also be showcased at the Future of Finance booth led by the Monetary Authority of Singapore (MAS), highlighting how its technology is being explored in the real-world. A live demonstration done together with a local financial institution will take place on **13 November, 12:30PM, Hall 6, Booth 6C37** during the Singapore FinTech Festival.

"Our focus is on translating AI innovation into real business value for enterprises," said **Cynthia Siantar, General Manager of Singapore, Dyna.AI.** "In Singapore, we're seeing enterprises move from exploring to execution--applying AI that augments human capability, strengthens decision-making, and ultimately drives real results that translate into top-line growth."

[Over 85%](#) of global financial institutions are now actively deploying AI solutions, and Singapore's fintech sector—which attracted [US\\$1.04 billion in H1 2025](#) alone—is

leading this transformation. The milestone underscores Singapore's commitment to AI innovation. Under the National AI Strategy 2.0, the country has fostered nearly 900 new AI startups, positioning Dyna.Ai as a key player in this thriving ecosystem.

Dyna.Ai will be showcasing its solutions through product demos, keynote presentations, and panel discussions featuring Tomas Skoumal, Co-founder and Chairman. The company will host daily fireside discussions with senior executives from leading fintech organizations, including the Singapore FinTech Association, ASIFMA, GXS, Fano, AWS, FIS Global, Lion X, and more.
