EY returns to Singapore FinTech Festival 2025, bringing insights on fintech strategy, artificial intelligence, sustainability and next-gen digital finance

SINGAPORE, 10 NOVEMBER 2025. The EY organization (EY) returns to the Singapore FinTech Festival, the annual flagship for the FinTech community, held on 12-14 November 2025.

At the EY Exchange, located at Hall 3, Booth #3J19, EY will convene over 20 visionary speakers to share insights drawn from research, real-world client experiences and deep industry domain knowledge. The 11 panel and fireside sessions will focus on the following four themes:

- Artificial intelligence (AI) and generative AI (GenAI) in financial services
- FinTech strategy and transformation
- Sustainability and environment, social and governance (ESG)
- Next-gen digital finance

Mr. Sumit Narayanan, EY Asia East Financial Services Coleader, also EY Asean Financial Services Leader, says:

“We are pleased to return to the Singapore FinTech Festival, and build on the work we do in bringing the best of EY teams to FinTech firms and the best of FinTech to the wider financial services market. The financial services ecosystem faces multifaceted challenges – from rapid advancements in digital and AI, fast-changing customer expectations and market dynamics to competitive disruption, sustainability and regulatory shifts. These are creating multifold risks and opportunities for transformation in the way organizations operate, collaborate and serve. By sharing insights and perspectives with ecosystem participants, we hope to support the continued growth of the Fintech industry and drive innovation, trust and resilience.”
