

WealthPeakAI Launches at Singapore FinTech Festival 2025

Singapore, 12 November 2025 – WealthPeakAI, a new relationship intelligence platform, officially launches at the Singapore FinTech Festival 2025. Designed for private bankers in Asia, WealthPeakAI helps them better understand and engage UHNW clients by turning complex data into actionable insights.

The platform leverages AI to aggregate proprietary and public information, giving bankers a clear view of clients' businesses, networks, and investments. Focusing on high-net-worth companies in Asia's financial hubs Singapore and Hong Kong as the start, WealthPeakAI delivers comprehensive regional coverage, helping bankers uncover opportunities and strengthen relationships across the region.

"We created WealthPeakAI to help bankers move beyond surface-level information and truly understand the people behind the wealth," said Megan Chau, Co-Founder and CEO of WealthPeakAI. "Our goal is to empower relationship managers with the tools they need to connect smarter, faster, and more meaningfully."

WealthPeakAI is now available to private banking teams across Asia.
