Through these partnerships, this year's SFF will bring together international leaders in finance, business, government, technology, and academia.

The World FinTech Festival in South Africa will be a **one-day virtual workshop on 8 December 2020** featuring senior experts in the local and international domain discussing cutting edge topics including crypto assets and stablecoins, the future of banking, finding and harnessing talent in fintech, cybersecurity in the age of fintech, and the importance of innovation in the digital age.
